

## Instruction for Laundry Project

Presented by:

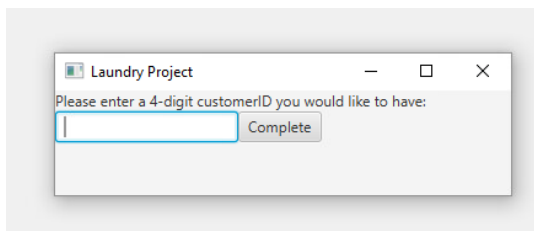

Mingyu He

Jiaqi Chen

This instruction guides you the way to use the laundry. After reading the instruction, you will be able to use our laundry project.

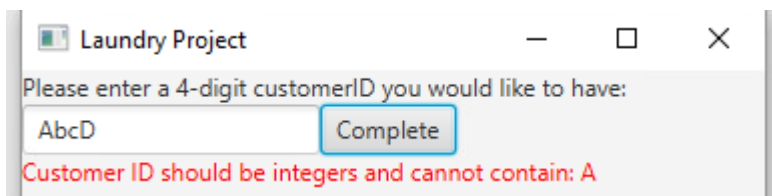

1. Press “New account” button (on the right of the third line) to create a new account.

Then you will see another screen as follow:

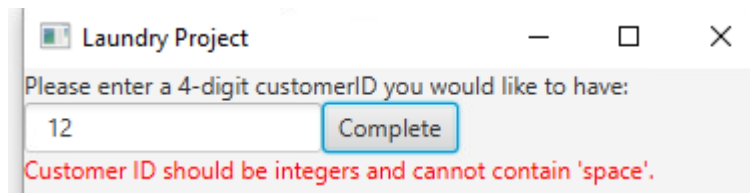

2. Enter the 4-digit ID you preferred. Must be four integers.

If you see the statement “Customer ID should be integers and cannot contain: ” as following picture showed:

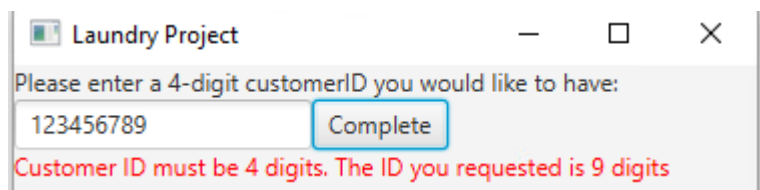

That means you typed an invalid input. Please enter four integers. Your customer ID should not contain characters.

If you see the statement “Customer ID should be integers and cannot contain ‘space’.” as following picture showed:

That means you typed an invalid input. Please enter four integers. Your customer ID should not contain space.

If you see the statement “Customer ID must be 4 digits. The ID you requested is # digits ” as following picture showed:

That means you typed an invalid input. Please enter a four-digit ID. The customer ID you entered has too many digits.

If you see the statement “This customer ID already exists. Please try another one.”

That means the customer ID you entered has already been used by others, another different ID is required.

Enter the customer ID your created in the text field (below the “Please enter your customer number:”).

3. Press “Log in” button (beside the text field).

If the red text “Account does not exist, please create a new account.” is

demonstrated, means you did not successfully create your account. Please redo step #2.

If the black text “Your current balance: 0.0” is illustrated under the , means you successfully created your account.

4. Click on the choice box under the “New account” button and choose the amount you would like to deposit.

Your account is a new account; it does not have any money in it. You need to deposit some money to increase your balance, so that you can pay to use the machine.

5. Press “DEPOSIT” button (beside the choice box)

Once the black text “Success” is shown, it means your deposit is succeeded. Your balance should grow.

6. Press “Check Availability” button. A list of available machines (machines are not used by others) will be demonstrated at the bottom of the app. Please choose from the list that is shown at the bottom.

7. Click on the choice box under the “Please enter your machine number:” statement, and please choose from the list noticed above.

(If you are using washing machine, please follow step #9 to select the mode.

If you are using dryer, please follow step #10 to select the mode.)

8. Click on the choice box (next to the statement “Wash mode”) to select the mode of washing machine.
9. Click on the choice box (next to the statement “Dryer Temperature”) to select the mode of dryer.
10. Press “Press to start” button and begin to use the machine.

In case the statement “Please select a machine first.” is shown at the bottom as follow:

A screenshot of a light gray rectangular box containing the text "Please select a machine first." in a blue, sans-serif font.

Means you did not select any machines yet. Please redo step #8 to select the preferred machine.

If the statement “Please select your wash mode.” Means you did not select the mode yet. Please redo step #9 to select the preferred mode.

If the statement “Please select the temperature for the dryer.” Means you did not select the mode yet. Please redo step #10 to select the preferred mode.

Once the statement “Payment approved.” is printed, and your balance decrease the amount of the price showed above.

A screenshot of a light gray rectangular box containing the text "Payment Approved." in a blue, sans-serif font.

If the statement “Machine is in use, please choose another one.” is printed. Means

other customer is using the current machine so you cannot start it. Please redo step #8 to select another machine and redo #9 or #10.

Machine is in use, please choose another one.

11. Press “End” button.

Please ends the machine after you finished your laundry.

In case the statement “Please select a machine first.” is shown at the bottom as follow:

Please select a machine first.

Means you did not select any machines yet. Please redo step #8 to select the preferred machine.

If the statement “Machine is in use, please choose another one.” is printed. Means other customer is using the current machine so you cannot end it. Please redo step #8 to select another machine and redo #9 or #10.

Machine is in use, please choose another one.

If the statement “Machine is ended. Thanks for using.” is printed. Thanks for using our app, you have successfully ended the machine.

Machine is ended. Thanks for using.

If you would like to use the app again, please follow the instruction and redo from step #1 to step#12.
